Free-Text Notes:

We are a busy family with little downtime, so we are looking for a nurturing, patient, and energetic nanny who can keep up with our twins. They love to play outdoors, so a willingness to take them to parks or engage in outdoor activities is important. Our golden retriever, Max, is part of our family, and we need someone who is comfortable with dogs and can help with feeding and occasional walks. Our twins are quite active and love imaginative play, so creativity and enthusiasm are essential. We appreciate a caregiver who can establish a routine but also be flexible with changing schedules. We're looking forward to finding someone special to join our family and help us navigate this busy stage of life. Thank you!
